WORK & EXPERIENCE

PlayPoint | Cincinnati, OH   *Sep. 2022– Present*
Contractor
- Finalizing web app development for March 2023 launch, added calendar, search, and notification features
- App uses VueJS, SCSS, and Firebase (Auth, database, cloud functions)

Recurse Center | New York, NY   *May 2022 - Aug. 2022*
Participant
- Honed skills in HTML, CSS, JavaScript, Python, ReactJS, and Flask through courses such as Full Stack Open and by working on personal projects (see below)
- Studied the basics of Haskell and functional programming by using this course, textbook, and advent of code problems
- Concentrated on implementing a text editor using the Canvas API

Just Salad | New York, NY   *Sep. 2021– Feb. 2022*
Associate Product Manager
- Coordinated with stakeholders across the organization to facilitate development of digital products
- Presented analyses of user behavior to leadership to help determine future product strategy
- Streamlined data querying processes by creating a web app with R to generate simple SQL queries

PROJECTS

Spotitter | Link
- Web app that allows a user to enter a Twitter handle and receive a Spotify playlist based on the tweets associated with the given twitter handle
- Uses Node, Express, and React

Canvas Based Notes App | Link
- Currently building a note taking app using the Canvas API to allow users to create and edit text documents in an unstructured way
- Uses React, Express, Node, MongoDB

Pomodoro Tracker | Link
- Pomodoro Tracker allows the user to record 'pomodoro' sessions along with other metadata
- User specific pomodoro data is then displayed for each user to visualize their work flow over time
- Uses React, Express, Node, MongoDB, Firebase Auth

EDUCATION & AWARDS

Carleton College | Northfield, MN   *Jun. 2021*
Bachelor of Arts in Statistics, **Cumulative GPA:** 3.86 / 4.0, Cum Laude, Dean's List 2017
- Chang-Lan Fellowship: Received $4,000 grant to research bargaining tactics in Chinese Knock-Off Markets experiences in Shanghai, Beijing, Shenzhen, and Guangzhou - canceled due to covid-19
- Senior thesis won 1st place in research competition (Link)
